

AULTBEA & GAIRLOCH MEDICAL PRACTICE FLEXIBLE GP OPPORTUNITY

“Yes, you can be seen today”.

Imagine working in a practice where patients can be seen the same day if they wish. Where you have the time to care for the person as well as the condition. With head space to invest in GP registrar and medical student training. Oh, and where patients really appreciate the service we offer and say so frequently. Each card tells its own story. With the privilege of being able to live and work on the northwest coast of the Scottish Highlands.

With a partner due to retire in early 2025 we have an opportunity for an enthusiastic General Practitioner to join our relaxed and friendly team. In the interest of attracting the best candidate(s) the post on offer can be flexed to suit your personal circumstances. The job here might suit an experienced GP looking for a change of environment but would equally be a good fit for a recently qualified GP with an interest in rural medicine. If you are interested why not give us a call and we can have a chat about different options.

We cover a large area of Wester Ross which lies on the famous www.northcoast500.com route containing remote, mainly coastal, rural settlements. We offer the opportunity to practise truly holistic, family centred, rural medicine in a relaxed environment in one of the most beautiful parts of the country.

- Currently 3 GP partners, 1 salaried GP, 2 Advanced Nurse Practitioners, 2 Practice Nurses
- GMS contract, list size 2,310. High profit share
